
EDUCATION

COLUMBIA UNIVERSITY, Dual MBA & MS Program MBA, Finance and Tech Strategy

New York, NY
2024 – May 2026

- *Leadership*: Co-President of AI Club — Scaled community 4x to 900+ paid, active members and established a partnership network with Anthropic, Google, Mistral AI, and 20+ startups, orchestrating 100+ events including NYC's largest AI hackathon; Manus AI Fellow — built and grown end-to-end agentic AI community, hosting live demo day, hackathon, and meetups in NYC

MS in Engineering and Applied Science (AI & Machine Learning), GPA: 9.5/10.0

- *Speaker, MathWorks Finance Conference 2025*: Built end-to-end RAG pipeline that transforms academic research papers into a graph vector database to source and validate alpha-generating strategies; presented to 100+ academic and industry professionals
- Teaching Assistant for IEOR4511 Analytics & Operations Research, and MRKT8671 Digital Wars

YONSEI UNIVERSITY

Seoul, Korea

Bachelor of Business Administration, Finance and Operations Research, GPA: 3.8/4.3

2010 – 2016

- *Military Service*: United States Forces Korea (2011 – 2013); Chief of Staff to US Army Provost Marshal, managing military police operations for 21,000-personnel army base; received “Best KATUSA Award” and “Military Police Achievement Medal”

EXPERIENCE

ANTHROPIC

New York, NY

Claude AI Evangelist / Community Lead

2025 – Present

- Built NYC's Claude developer ecosystem 0→1,300+ members, delivering 30+ technical sessions (Context Engineering deep-dives for developers, AI-native workflow demos for C-suite at global banks) across meetups, hackathons, and executive briefings
- Created and delivered a workshop curriculum to 600+ professionals across financial services, consulting, and tech — driving hands-on Claude adoption and generating a pipeline of qualified enterprise use cases for Anthropic's sales organization

AMAZON (NASDAQ:AMZN)

Seattle, WA

Senior Product Manager Intern, Devices and Services

2025

- Designed the 3-year “Think Big” strategy for Fire TV Ads by architecting an agentic AI orchestration layer to autonomously manage cross-platform ad campaigns, securing leadership approval and projecting \$X.X billion net-new revenue in its first year
- Built the product roadmap by defining success metrics and designing a predictive ML model—trained on trailer engagement, demographics, and box office data—to close attribution gaps, securing executive buy-in and projecting 286% lift in conversions
- Led stakeholder discovery across 20+ teams (Sales, Product, Engineering); synthesized competing priorities into Amazon's first AI-native Lifecycle Marketing Platform roadmap with phased delivery milestones

COUPANG (NYSE:CPNG)

Seoul, Korea / Taipei, Taiwan

Product Manager, Finance Platform and Engineering

2023 – 2024

- Spearheaded 0→1 B2B settlement product for Taiwan market expansion—defined product requirements, prioritized features against a P0/P1/P2 backlog, and shipped automated contract processing and payment reconciliation that unlocked +2.5% GMV
- Led development of enterprise revenue recognition system, defining acceptance criteria and orchestrating 100+ cross-functional stakeholders to identify and prioritize settlement backlog; recognized 95% of deferred revenue backlog spanning 6-year period
- Drove 96% reduction in data errors and +90% in month-end closing efficiency through Spark-powered validation pipelines; bridged accounting and engineering requirements to enable real-time financial data processing for internal control system

CONCAT INC.

Seoul, Korea

AI-powered FinTech startup for B2C insurance optimization – Exited to a major insurance firm

2017 – 2023

Co-founder / Head of Product & Analytics

- Co-founded and scaled an AI-native insurance optimization platform from initial hypothesis through 3 pivots to product-market fit, validating via extensive user research and leading pre-sale negotiations that resulted in strategic acquisition
- Owned end-to-end product lifecycle—from user research and wireframing through A/B experimentation (Firebase) to production release—for an AI-powered recommendation engine that achieved 2× higher conversion rates vs. competitors
- Served as trusted technical advisor to partner insurer's C-suite, defining and executing a digital transformation roadmap that drove a 300% increase in market valuation multiple prior to its successful IPO in November 2020
- Led R&D for NLP and predictive analytics; secured 3 government grants and achieved a global top-20 in Kaggle Competitions
